

The **University of Potsdam's Faculty of Health Sciences** – a joint faculty of the **University of Potsdam, the Brandenburg Medical School Theodor Fontane** and the **Brandenburg Technical University Cottbus-Senftenberg** – invites applications for the following position to be filled at the next possible point in time:

Full (W3) Professorship for Mental Health and Behavioral Medicine

We aim to fill this role with a medical doctor, psychologist or health scientist who has an excellent, internationally visible research profile in the field of mental health throughout the entire life span, who has demonstrated knowledge of behavioral medicine, and who is successful in obtaining competitive external funding. In addition, we expect a research profile that is compatible with existing research activities at the university and its extramural research institutions, as well as clinical research on metabolic syndromes. Collaboration with research activities in psychology and linguistics is desired. The professor will work in the Faculty of Health Sciences, which is in the process of being established. The central research topic of the new faculty is the medicine and health of aging.

The applicant should be able to be involved in teaching in new degree programs focusing for example on Public Health, Exercise and Nutrition and to fully represent the subject to be covered in teaching.

Please contact the Dean of the Faculty (dekanat@fgw-brandenburg.de) if you have any questions or would like to request further information about the position.

The following application requirements for professors must be documented in accordance with Section 41 of the Brandenburg Higher Education Act (*Brandenburgisches Hochschulgesetz* or *BbgHG*): a completed university degree, pedagogical talent, and a particular aptitude for scientific and scholarly work, as is typically documented by a dissertation project; comprehensive competences in science management and additional scholarly achievements as evidenced by a Habilitation (post-doctoral dissertation), a junior professorship or work as a research associate at an institution of higher education or an extramural research institution, or scholarly activity in the private sector, or in a similar social field, whether in Germany or abroad. The appointment procedure is conducted in accordance with Section 40 BbgHG.

The University strives for a balanced gender ratio at all levels. Severely disabled applicants will be given preferential consideration in the event of equal qualification. We expressly invite applications from people with migration backgrounds.

The University of Potsdam offers dual career support and coaching for newly appointed professors: www.uni-potsdam.de/berufungen.html.

Applications (with a presentation of your research interests, curriculum vitae, copies of academic certificates and documents, a list of publications, a list of courses taught, a list of externally funded projects, and the questionnaire located at <https://www.uni-potsdam.de/verwaltung/dezernat3/stellen/>) should be sent (in a single PDF file) to the University of Potsdam at ausschreibungen@uni-potsdam.de within four weeks of the publication of this notice.
